## Registering with the Medical Use of Marijuana Program

### 1 Obtain a Certification

This is the first step. You must first be certified by a qualified health care provider in order to register. Schedule an appointment with your health care provider. A certification is given after the patient is diagnosed with a debilitating medical condition.

### 2 Register With The State

You must complete your registration with the Medical Use of Marijuana Program (Program). See below for ways to register. The Program reviews applications in the order they are received.

### PIN Number

After you are certified, you will be sent an email from the Massachusetts Cannabis Control Commission (CCC) with your:

- Patient PIN number
- Instructions on how to register with the Program

## Two Ways To Register

Online registration through the Medical Use of Marijuana Online system is the fastest and most convenient way to register. For detailed instructions, please refer to the following link: [www.Mass.Gov/MedicalMarijuana](http://www.Mass.Gov/MedicalMarijuana)

Paper registration is available for those who are unable to register online. This is a more lengthy process. Please call the Program at (833) 869-6820 to request a paper registration form.

### Before Registering You Will Need The Following:

If registering online, you may be able to use your MA RMV photo during the “Upload Photo” step. Please reference the photograph instructions on the next page.

### First Time Online Registrants:
